

SCHOOL OF CHEMISTRY  
Research Seminar Programme

Semester 2 (Hillary Term) January to April 2017

Thursdays at 12 noon\*

Chemistry LARGE Lecture Theatre\*

Main Building

\*unless otherwise state

Date	Speaker	Title
19-01-17	Prof. Andrew Wilson RSC Norman Heatley Award Winner	<i>"Inhibition of Protein-Protein Interactions Using Biomimetic Approaches"</i>
26-01-17	Prof. Yuri Gunko TCD	<i>"Chiral Nanomaterials"</i>
02-02-17	Prof. Kay Severin (Werner Chemical Society)	<i>"Boronic Acids in Structural Supramolecular Chemistry"</i>
09-02-17	Dr Marina Rubini UCD	<i>"Non-natural amino acids as tools to explore protein function and folding"</i>
16-02-17	Niall McEvoy TCD	<i>Vapour-Phase Growth and Applications of 2D TMDs</i>
23-02-17	Prof Tom Nugent Department of Life Sciences and Chemistry Jacobs University Bremen (Germany)	<i>"Beyond Chemoselectivity: Catalytic Site Selective Aldolization of Diketones and Exploitation for Enantioselective Alzheimer Drug Candidate Synthesis"</i>
02-03-17	Prof. Richard Walton Warwick	
09-03-17	Dr Lydia Tabernaro Univeristy of Manchester	TBC
16-03-17	Prof. Jessica Rouge University of Connecticut	<i>"Enzymes, RNA and Nanomaterials: Using biochemical approaches to control the targeting, release and biological activity of nanoparticle drug delivery systems"</i>
23-03-17	Prof. Paul Brennan, University of Oxford	<i>"Chemical fragments to probes for epigenetic proteins"</i>
30-03-17	Dr. Serena Corr, School of Chemistry, University of Glasgow, UK	TBC
06-04-17	Prof. Mark Bradley RSC Tilden Prize Winner 2016	TBC
13-04-17	Easter Thursday	Easter Thursday
20-04-17	Dwayne Miller RSC Centenary Prize 2016 Winner	TBC
